

High Altitude Permaculture presents the 6th annual

Permaculture through the Seasons!

A Local 8-Month Course in Boulder, Colorado
with Permaculture Design Course Certification

March 10th — October 14th, 2012

Second Weekend of Each Month

Course Topics

Designing Ecosystems

Learning from Natural Systems
Permaculture Principles
Site Analysis
Creating an Integrated System

Cultivating Organic Foods

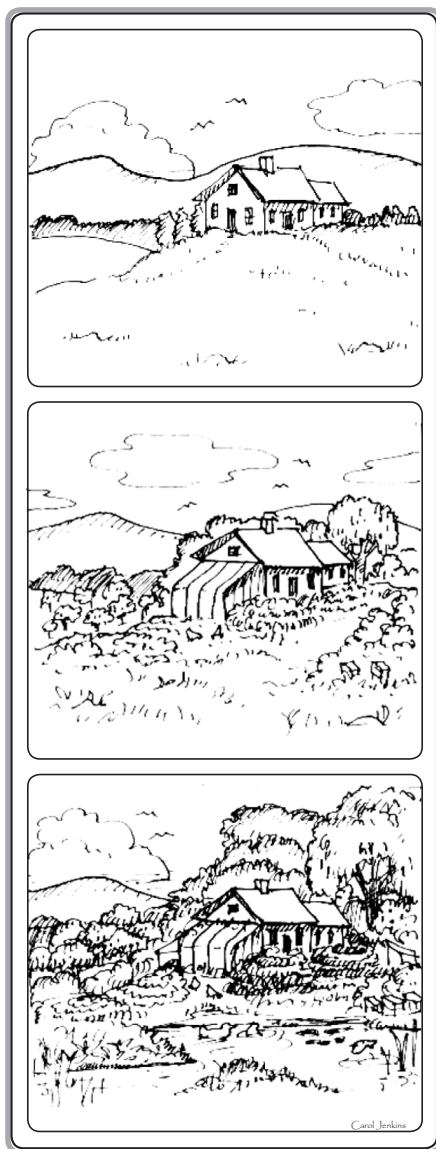

Creating Microclimates
Building Soils
Water Harvesting
Plant Propagation
Forest Gardens
Medicinal Herbs
Organic Beekeeping
Aquaculture
Animals in Small Systems
Integrated "Pest" Management
Storing the Harvest
Cold Season Growing

Appropriate Technologies

Leading Edge Building
Water Catchment
Full Loop Waste Systems
Solar Greenhouse Design
Clean & Renewable Fuels

Designing for Community

Urban, Suburban & Rural
Alternative Economies
Wildlands Restoration
A Vision for the Future

Course Facilitators

Sandy Cruz

Barbara Mueser

Lynne Duguay

Guest Instructors

Jason Gerhardt Becky Elder
Marco Lam Adam Brock and more!

Program Cost

\$950.00 if registered by 1/10/12

\$1100.00 if registered by 2/10/12

\$1200.00 after 2/10/12

Some work/study half-trades available
based on financial need and skills

Registration

Sandy Cruz

(719) 539-7685

How can humans live on Earth in harmony, abundance, grace and ease for eons into the future?

Permaculture is the art of creating living ecosystems that imitate nature to provide food, fuel and shelter. Using innovative and indigenous agricultural techniques as well as appropriate technologies, course participants will learn to move towards regenerative living. Through multifaceted learning techniques — hands-on projects, tours, slide shows, exercises, lectures and readings — students will acquire knowledge of Permaculture Design for our Rocky Mountain bioregion and beyond.
